

# Independent PMO for Complex IT & Digital Transformation

Executive clarity × On-the-ground execution

## THE SITUATION WE COMMONLY SEE

Multiple systems and SaaS introduced independently

Requirements defined after development has already started

Vendor-driven decisions replacing business-driven ones

Executives lacking a clear, shared view of what is happening

## CORE INSIGHT

**This is not a system problem.**

**It is a governance problem.**

## OUR POSITION

Independent PMO & requirement-definition specialist

Vendor-neutral by design

Focused on upstream clarity and executive decision support

Built to prevent rework, confusion, and misalignment

# How We Work & Who Leads

## HOW WE WORK

- 1 Current State Assessment**  
Systems, processes, vendors, contracts
- 2 To-Be Definition**  
Business-driven architecture and scope clarity
- 3 RFP & Vendor Control**  
Objective evaluation, negotiation, and governance
- 4 PMO & Execution Oversight**  
Cost, scope, and progress visibility for executives

## WHAT YOU GAIN

Prevention of unnecessary re-development  
Avoidance of vendor lock-in  
Faster, clearer executive decisions  
Documentation that survives personnel changes

## WHO LEADS THIS WORK

### Chiaki Shirai

Founder & Managing Director | CHIAKI SHIRAI MANAGEMENT W.L.L.
